Just a short note to point out that submissions to the 2019 Breakthrough Junior Challenge are now open until June 15. Students ages 13 to 18 from countries across the globe are invited to create and submit original videos (3:00 minutes in length maximum) that bring to life a concept or theory in the life sciences, physics or mathematics. The submissions are judged on the student's ability to communicate complex scientific ideas in engaging, illuminating, and imaginative ways. The Challenge is organized by the Breakthrough Prize Foundation, in partnership with Khan Academy, National Geographic, and Cold Spring Harbor Laboratory. The winner of the challenge recieves a $250K college scholarship, with an addition $50K prize to the winner's maths or science teacher, and a $100K lab for the student's school. (This year I will be on the selection committee for this challenge.)

Great project for a teenager.

Anthony · 6 May 2019

Spreading the $400K prize money over the best three or four, rather than all for the winning entry, might have been more effective in boosting science teaching.

SATYABRATA DAS · 6 May 2019

Sir, I was born in 2001 on 04/05/2001. Can I submit for Breakthrough junior challenge?

Marshall Flax · 7 May 2019

Yes. The rules state: "You must be 13 years of age by May 15 at 12:01 AM Pacific Daylight Time ("PDT") to participate in the Challenge, and You cannot be older than 18 years of age (not yet 19) on October 1, 2019 at 11:59 PM PDT."

Thanks for sharing.

Mohammed A. Sesay · 8 June 2019

Hello, I am very excited to participate in this year's breakthrough junior challenge. I am a Liberian and currently 18 years and will soon be 19 by October 28. Am I eligible to submit my application?
