Course announcement: 246B, complex analysis

Terence Tao · 11 December 2020

https://terrytao.wordpress.com/2020/12/11/course-announcement-246b-complex-analysis/

tao2typ · converted to Typst 2026-10-14 (UTC)

Just a short announcement that next quarter I will be continuing the recently concluded 246A complex analysis class as 246B. Topics I plan to cover:

- Schwartz-Christoffel transformations and the uniformisation theorem (using the remainder of the 246A notes);
- Jensen's formula and factorisation theorems (particularly Weierstrass and Hadamard); the Gamma function;
- Connections with the Fourier transform on the real line;
- Elliptic functions and their relatives;
- (if time permits) the Riemann zeta function and the prime number theorem.

Notes for the later material will appear on this blog in due course.

raian anantharaman · 11 December 2020

Thanks for this complex 2nd
It seems that the Paley..Weiner .theorem in the complex plane Cis included. also
may be Stein s generalizarion?

Edgawliet · 14 December 2020

Very good. Thank you Professor Tao. I hope I could enrol in your online courses in the future when I have enough knowledge.

Date of start · 16 December 2020

Prof. Tao can you please tell us the date when the course 246B will begin ?

>
> I understand the first lecture is Monday January 4th
> https://ccle.ucla.edu/mod/page/view.php?id=3434115
> at 10-10:50am PT, but it would be cool to have a confirmation.

Anonymous · 16 December 2020

You can find all your answer from this link https://ccle.ucla.edu/course/view/21W-MATH246B-1

paul miller · 20 December 2020

Thank you. Will you be making the lectures publicly available? I was inspired by your 246A lectures and would love to be able to hear 246B if possible. regards, Paul Miller

Anonymous · 12 January 2021

Dear Prof. Tao:
Could you teach 246C in the spring? It will be nice to complete the sequence. When things go back to normal next year, non-UCLA students won't be able to attend your classes.

Anonymous · 15 February 2021

Is there no class on Feb 15 due to Presidents' Day holiday?

h0sane · 22 March 2021

Will the notes for this be available online after?

Anonymous · 23 March 2021

It is already posted.

h0sane · 23 March 2021

thank you so much!
